Is Your Security Operations Team Overwhelmed?

A security orchestration, automation and response (SOAR) platform can help.

PROBLEM

44% of SecOps managers see **over 5,000 security alerts per day.**

SOLUTION

Correlate critical event details with threat intelligence, SIEM data and more.

PROBLEM

Security operations center managers can only sufficiently **investigate 25% of security threats.**

SOLUTION

Manage and automate incident response with flexible playbooks and workflows to fit your unique use cases.

PROBLEM

65% of organizations report a **shortage of skilled professionals.**

SOLUTION

Triage alarms and respond to critical events quickly and effectively.

PROBLEM

The average enterprise uses **75 security tools** to secure their network.

SOLUTION

Integrate your people, processes and existing tools to access all relevant incident data in one solution.

PROBLEM

The average company takes **more than 250 days** to detect, mitigate and recover from an advanced threat.

SOLUTION

Replace your manual incident response processes and reduce MTTR without adding overhead.
