

# AI-Enhanced Automation for the Entire Security Organization

The world's most secure organizations never settle for "good enough" security automation

## Largest and Fastest-Growing Independent Security Automation Company

Swimlane is the leader in AI-enhanced security automation. The Swimlane Turbine platform unifies security operations in-and-beyond the SOC into a single system of record that helps reduce process and data fatigue, while helping security leaders overcome chronic staffing shortages and more easily quantify business value and the efficacy of security operations.

**123%**

We help you throughout your entire security automation journey.

## Why Swimlane Turbine

It's time to re-think SecOps and the future of SOAR. The security vendor landscape will always be consolidating but will never be consolidated. That's why investing in an independent security automation platform is critical for improving security outcomes. Here are the top 5 reasons why security leaders like you prefer Swimlane Turbine for SOC automation.

## → OUR CUSTOMER JOURNEY

### ARMOR ASSESSMENT

The automation maturity of orchestrated resources (ARMOR) assessment consists of two components, a maturity matrix and a readiness assessment designed to deliver actionable insights to help you continuously improve your SecOps automation.

### ROI Calculator

Automatically quantify Swimlane's impact on your business operations, efficiency, and time to respond.

### Proven POV Processes

Time-proven testing and methodologies to quickly demonstrate Swimlane's value within your environment.

### Implementation & Onboarding

A wide variety of learning resources to ensure your teams get the most from your Swimlane investment and develop deep role-based competency.

### Quarterly Business Reviews

A dedicated in-house customer success team to see you through the complete lifecycle of your automation engagement.

### Technical Account Management

Our team of TAM's are collaborative listeners. They are dedicated to putting your needs first in order to ensure that strategic objectives are met with measurable outcomes.

### 24/7 Global Assistance

Swimlane provides 24/7 support from deployment to optimizing complex features like playbooks and case management.

## Ultimate SecOps Efficacy

Hero AI, Swimlane's collection of AI innovations, acts as your ultimate assistant for faster and simpler SecOps.

## Integrate Anything

Never settle for the vendor lock-in that comes from trusting automation to "platformization" vendors. Turbine integrates with any API, even non-SOC tools, at no-cost to you.

## Expand Visibility & Actionability

Turbine's Active Sensing Fabric ingests, enriches and correlates data from broader and hard-to-reach telemetry sources and cloud-scale.

## Powerfully Simple Automation

Turbine Canvas is a low-code automation building studio that helps you build playbooks 3x faster.

## Complete Control & Composability

Turbine's collection of business intelligence applications include case management, threat intelligence, collaboration, dashboards and reporting that help SecOps gain actionable insight and enforce best practices.

## Hear from your Peers

Don't take our word from it, hear success stories straight from the source. Our customer base includes more than 40 Fortune 500 companies, 25 federal agencies and five of the top 10 global solutions integrators. Check out Swimlane on Gartner Peer Insights to see why customers rate us #1 compared to SOAR vendors and security automation alternatives.
