

# Turbine MSSP Action-Based Pricing Model

Scale your business with a full-featured, agentic AI automation platform, offering packages tailored to scale with your clients' needs.

Gain access to the full-featured Swimlane Turbine agentic AI automation platform for MSSPs. Our pricing follows a tiered model broken down by the daily average number of actions automated. We are all about action, not consumption, so you'll only pay for the work that Turbine does on your behalf. You may aggregate automation capacity across all clients, tenants, and regions to maximize cost-effectiveness. As a Swimlane customer, your CSM will work hand-in-hand with you to review your automation needs monthly, with quarterly true-ups as needed

## All Tiers Include

- ✓ Swimlane SOC Automation Solution
- ✓ Case management
- ✓ Dashboards & reporting
- ✓ Unlimited remote Agents
- ✓ Infinite integrations & marketplace
- ✓ Unlimited active playbooks
- ✓ Full administrative security & compliance control
- ✓ Unlimited tenants
- ✓ Premium Support

TAM Support	2 hours/week	2 hours/week	2 hours/week	5 hours/week	5 hours/week
Implementation	2 weeks of implementation time	2 weeks of implementation time	3 weeks of implementation time	4 weeks of implementation time	5 weeks of implementation time

## What is an Action?

To put it simply, an action is anything that we automate on your behalf, which is visually represented by a rectangle (otherwise known as a component) on a fully expanded playbook. Some common examples of actions include:

- Connector actions
- Data transformations
- Calling another component
- Calling another tool
- Hero AI action

Triggers do not count as an action.

# 24/7 Security Coverage

We value your security. If your average daily actions automated exceed your licensing plan, Turbine will continue to process playbooks without interruption. We will never stop an action from running.

## Swimlane Hero AI Capabilities and Value

Hero AI prompts are included for all Turbine customers. If a customer does not want Hero AI, it can be disabled for their entire account.

MSSPs that adopt Hero AI can improve their efficiency by 20% in addition to the benefits of automation alone. Additional Hero AI prompt packs are available to further extend the ROI. Generalized return on investment estimates are outlined below. Get a personalized ROI estimate at [swimlane.com/roi-calculator](https://swimlane.com/roi-calculator).

Hero AI	Productivity Gains	Return on Investment
100 prompts/day	+2 SOC Analysts	\$208,333
250 prompts/day	+5 SOC Analysts	\$520,833
500 prompts/day	+10 SOC Analysts	\$1,041,666
1000 prompts/day	+20 SOC Analysts	\$2,083,333
