

Microsoft Entra ID

Secure access for a connected world

Microsoft Entra ID provides a complete identity and access management (IAM) solution with integrated security to manage and protect all your users and data. Microsoft Entra ID is a multicloud identity platform that integrates with Microsoft 365, Windows, Intune, thousands of SaaS applications, and your hybrid identity environment to meet the needs of today's enterprise.

Microsoft Entra ID offers rich signal and security controls that empower employees, partners, and customers to be productive by providing seamless, secure sign-in experiences to applications and services while protecting identities from threats. Secure user credentials by enforcing strong authentication and Conditional Access policies. Efficiently managing identities ensures that the right people have the right access to the right resources.

How Swimlane Turbine integrates with Microsoft Entra ID

Swimlane Turbine easily integrates with Entra ID via a connector available on the [Swimlane Marketplace](#). This allows to streamline user account management and automate identity-related tasks within the Azure ecosystem. By integrating with Entra ID, users can efficiently create, delete, retrieve, list, and update accounts within Turbine, significantly enhancing identity management and security automation.

Customer Benefits

- **Accelerated Analyst Productivity:** Automate user provisioning, access enforcement, and account response tasks using Entra ID to effectively add the capacity of 20 virtual SOC analysts to your team.
- **Automated Remediation for Identity Threats:** Implement automated remediation actions through Entra ID (e.g., enforcing password resets, revoking suspicious access) triggered by Swimlane Turbine's incident response playbooks, developed 3x faster than traditional SOAR.
- **High ROI:** Achieve 240% ROI in year one on your identity security operations.
