# SWIMLANE

Swimlane Turbine Enterprise Packages

AI security automation at price points that maximize ROI

Gain access to the Swimlane Turbine AI security automation platform without hidden costs for features or capabilities. The pricing for Swimlane Turbine follows a tiered, value-based model based on the daily average number of events automated. The Turbine pricing model is all about action, not consumption, so customers only pay for the work that Turbine does on their behalf.

KEY FEATURES	BASE	ADVANTAGE	PREMIUM	ENTERPRISE
Automation Capacity	Up to 2k events/day	Up to 5k events/day	Up to 10K events/day	Unlimited events/day
Low-Code Development	Canvas	Canvas & GIT Repository		
Hero AI	25 prompts/day			
Support Included	25 prompts/day available for consenting customers.			

All Tiers Include

- Case Management
- Dashboards & Reporting
- Threat Intelligence Management
- Infinite Integrations

- Unlimited Users
- Generative AI
- Unlimited Remote Agents
- No & Low-Code Playbook Builder

- Pre-built Solutions for Phishing and Alert Triage
- Full Administrative Security & Compliance Controls

What is an Event?

An event is any event type that triggers a playbook to run. Event types that count towards a customer's daily average include:

- Webhook
- Record create
- Record update
- CRON
- Button click
- Correlation

Event types that do NOT count towards the daily average include:

- Test

24/7 Security Coverage

Your security is of the utmost importance to us. In a situation where your event consumption exceeds your licensing plan, Turbine will continue to process events and playbooks without interruption. While we will never stop an event from processing or the playbook from running.

Swimlane Hero AI Capabilities and Value

25 Hero AI prompts per day are included in all Swimlane platform offers, however this functionality is turned OFF by default. Customers may use the included generative AI capabilities once they have acknowledged the Swimlane AI policy, explicitly turn on Hero AI, and configure capabilities with a Swimlane–provided authentication token. Customers who adopt Hero AI can expect to save an average of 10 minutes for every prompt used. Additional Hero AI prompt packs are available to extend the ROI even further.

Hero AI	Productivity Gains	Return on Investment
100 prompts/day	+2 SOC Analysts	$208,333
250 prompts/day	+5 SOC Analysts	$520,833
500 prompts/day	+10 SOC Analysts	$1,041,666
1000 prompts/day	+20 SOC Analysts	$2,083,333
